

8 Days Safari & Zanzibar

Known as the Spice Island, the beautiful island of Zanzibar on Africa's east coast is bursting with culture and history, seemingly at odds with its idyllic geography of white-sand beaches with palms swaying lazily in the sea breeze. Together this makes Zanzibar a fabulous place to explore as well as a dream to relax and unwind.

Zanzibar is a small misunderstood island, the island where reality is not the one we expected. It has built its reputation on tourist beaches, but it is for its history it deserves your visit. We have already forgotten that this island has seen bloodshed, sweat and tears of those who had been uprooted from their land and forced to embark in Bagamoyo (nearest mainland port of the island) to work on plantations . Who knows that the spice trade was flourishing in the seventeenth century and spices were as coveted as oil today!

Wars, invasions, intrigues of the clans and slavery have created a unique and rich history on such a small territory.

Today, it is regrettable that there are only some near-abandoned ruins, beautiful doors poorly preserved and the tourist pressure suppresses its past every day a little more.

Zanzibar is an independent island (in theory, because the big sister Tanzania is pulling almost all the strings), we do not provide tourism service in the island apart from hotels.

Local agencies are numerous, making the right choice...
